Write down your research questions:__________________________________________________________________________________________________________

Define your question using PICO: Population, Intervention, Comparison, and Outcome:

Population:____________________________________________________________________________________________________________________________

Intervention:________________________________________________________________________________________________________________________________

Comparison:________________________________________________________________________________________________________________________________

Outcome:________________________________________________________________________________________________________________________________

List the main topics and terms from your question that you can use to search:

<table>
<thead>
<tr>
<th>Keywords</th>
<th>Alternative Keywords/Synonyms</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

Check any limit that may pertain to your search:

___ Peer-reviewed ___ Language ___ Publication date

If you have other criteria, list them here:________________________________________________________________________________________________

Type of study/publication you want to include in your search:

___ Systematic review or meta-analysis
___ Randomized controlled trials
___ Quasi-experiments (correlational designs; single-case designs)
___ Case reports
___ Critically appraised (review) research studies
___ Pretest-posttest studies
___ Survey of clients or practitioners (i.e., opinion/attitude survey)

Check the databases you searched:

___ PsychINFO
___ SocINDEX
___ Social Science Citation Index
___ MEDLINE
___ Other:_________________________________________________________________________________________________
